Danish Bathroom Cabinetry

There are many factors that go into making top quality furniture. As an authorized distributor for Viking Vanities, we feel this product is one of the best on the market today. Following all the latest technological advances, the solid hardwood workmanship and good quality productions they supply guarantee we are selling the highest quality product for the best possible price. Bathroom vanities are one of the most challenging pieces of furniture produced today. Elevated humidity levels, and heavy use, command the use of the very best materials and most advanced finishing

Wood All of our vanities are Kiln-dried selected hardwoods. All wood is properly dried to prevent warping and cracking

Inner Construction All of our wooden vanities use framed type construction. This ensures stability & unsurpassed durability for many years to come.

Vanity Tops All vanities feature either natural stone tops only, integrated sinks or solid hardwood water sealed surfaces. You can depend on the natural beauty and durability. In addition, all of our stone tops are sealed to prevent watermarks or common stains.

Finish All of our vanities have properly sealed finishes to prevent peeling and fading in elevated humidity levels.
